Get the Cooling Power of Amana® Brand Air Conditioners

Beat the summer heat with a premium Amana brand ASX13 R-410A Air Conditioner — a unit that provides you with high-efficiency, outstanding performance, quiet operation and long-lasting warranties* — including a **10-Year Parts Limited Warranty***. This air conditioner's reliable operation and outstanding features add up to premium indoor comfort.

The Amana brand has a long reputation for providing quality and innovation in home appliances, and our heating and air conditioning products are made with the same level of commitment. You can expect years of dependable service from your Amana brand ASX13 R-410A Air Conditioner. Why suffer through hot, humid days with an inefficient, noisy lower SEER air conditioner when an Amana brand ASX13 unit with chlorine-free R-410A refrigerant can consistently deliver quiet, energy-conserving comfort?

Energy-Saving Efficiency With Amana

When properly matched and installed, your Amana brand ASX13 Air Conditioner offers 13 SEER energy-efficiency performance. "SEER" stands for Seasonal Energy Efficiency Ratio, a measure used by the U.S. Department of Energy to rate the efficiency of air conditioners and heat pumps. The higher the SEER, the greater the efficiency — and the lower the operating cost. Compared to lower SEER units found in many homes, an ASX13 air conditioner can provide significant savings on your electric bill.

With Amana brand Air Conditioners, your comfort and savings start with a high-efficiency Copeland® Scroll compressor. This high-quality component uses the latest compression technology and features overload protection. The efficient design of the scroll compressor is complemented by our efficient condensing coil, which is made with corrugated aluminum fins and refrigeration-grade copper tubing.

Experience Quiet Comfort

You can be assured that your Amana brand Air Conditioner will provide you with quiet operation. To minimize operating sounds, we've acoustically engineered our systems with enhancements that include a compressor sound-reduction cover made of high-density foam and a specially designed sound-control top.

** To receive the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. Full warranty details available at www.amana-hac.com.*

Commitment to Quality Engineering

Always in pursuit of the highest performance and efficiency, our engineers are constantly evaluating the latest technology and applying it to every Amana brand air conditioner. This commitment to constant improvement ensures that our units continue to meet or surpass industry standards. The Amana brand line of air conditioners is designed and built to ensure dependably high Seasonal Energy Efficiency Ratios (SEER) and continuous, trouble-free cooling comfort.

But best of all, the operation of your air conditioner can be monitored and reviewed by your contractor with the use of the ComfortAlert™ Diagnostics module that we build into all of our premium Amana brand units. This module monitors data from the unit, accurately detects the cause of system-related issues, and communicates the situation to the contractor through an LED indicator using a series of flash codes.

Long-Lasting Inside and Out

Quiet, compact, and painted in a two-tone combination of dark Architectural Gray and a lighter Executive Gray that blends in with any landscape or architecture, an Amana brand ASX13 Air Conditioner is the perfect choice for a home in any neighborhood. To ensure that your unit will maintain its original, attractive appearance, we protect its exterior with a baked-on powder paint finish that resists rust and corrosion.

We also utilize a strong, PVC-coated wire grille to protect the fan and motor, and a sturdy, louvered guard made of galvanized steel to protect the coil from weather and other potentially damaging elements. Factory-installed filter dryers protect your system from debris and moisture — and the unit's state-of-the-art design includes a vertical condenser air discharge feature that protects your valuable landscaping.

Exceptional Performance

With the exceptional materials, engineering and workmanship that are part of every Amana brand product, we confidently back our ASX13 Air Conditioners with what we believe to be some of the best standard warranties and extended service plans in the industry. For residential installations, these warranties include the following:

- **10-Year Parts Limited Warranty*** on all functional parts

Asure^{SM†}
EXTENDED SERVICE PLAN

For even greater peace of mind, ask your dealer or visit our web site at www.amana-hac.com for more details about **Asure**SM, an affordable Parts and Labor Extended Service Plan for your entire Amana Brand HVAC system.†

Additional Information

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

† Extended Service Plans not available in all states. Ask your dealer for full details.

Amana Quality

Americans have been relying on long-lasting Amana® brand products since 1934, when Amana, Iowa, native George Foerstner accepted the challenge of building a dependable beverage cooler. Since then, the Amana brand has enjoyed many firsts, including developing the first cold storage locker, being the first manufacturer to nationally market an upright freezer for home use, and introducing the first portable countertop microwave oven.

The residents of Amana, Iowa, began a long history of pioneering and craftsmanship, and that spirit continues today in the manufacturing of quality Amana Heating & Air Conditioning products. From the technology behind our patented Million-Air™ heat exchanger to what we believe to be the industry's best warranties to the inclusion of high-quality filter dryers in each of our air conditioners and heat pumps, we remain committed to Amana's legacy of providing consumers with heating and cooling products that are built to last.

Look to your qualified Amana brand dealer to obtain expert advice about installation and service. Your dealer can help you decide which model best suits your needs.
